

# INVISIO® FIRE

*The in-ear headset tailor made for usage in extreme heat*

## FEATURES

- Heat protection sleeve withstands an operating temperature of 250°C and flash over of 350°C
- Heat protection provided by highly resistant Teflon® (polytetrafluoroethylene) sleeve rated to UL94 V0
- Vibration sensing Bone Conduction Microphone for clear speech and total elimination of ambient noise
- High performance balanced armature loudspeaker with low distortion
- Kevlar® reinforced silver plated alloy cable with Teflon® insulation and a pull strength of over 20kg
- Ergonomic Cable Retainer - securing cable behind the ear

*Extreme temperature usage, from -65 to 350 degrees Celsius*

*Discrete design with superior comfort and secure fit*

*Self extinguishing (UL94 V0) with chemical resistance to aggressive chemical agents*

*Compatible with helmets, gas masks or circumaural headsets*

INVISIO® FIRE utilizes the patented Bone Conduction Microphone. It has no external microphone and captures vibrations in the user's jawbone converting them to crisp and clear sound. No external ambient noise around the user is picked up. As a result, the headset can be used in extreme situations with no interference commonly found when communicating in these environments.

INVISIO® FIRE offers unsurpassed performance, comfort and fit for professional users. Utilizing a form factor that has been researched and designed over the last decade, the patented Soft Spring™ adapts perfectly to the contours of the ear offering maximum comfort as well as a secure fit. The Soft Spring™ can be easily adjusted in length to perfectly fit the contours of any ear. This allows compatibility with helmets, eyewear, gas masks or circumaural headsets. INVISIO® FIRE is the ultimate fire headset.

## Technical Specifications

### Cable

Colours	Fire Red or Tactical Black
Lengths	910 mm (with coil)

### About INVISIO®

For over a decade INVISIO has developed high performance, tactical headsets to Special Forces, SWAT Teams, Law Enforcement and Fire & Rescue teams across the globe to meet their needs in extreme environments. INVISIO offers an extensive range of tactical headsets and Push-To-Talk (PTT) solutions to equip the professional communication user.

INVISIO headsets utilize the patented Bone Conduction Technology which offers unsurpassed communication in all environments. Because of the unique voice transfer system, ambient sounds that can interfere during a conversation are eliminated. Wind, military vehicles, even gun fire are not transmitted - only your voice.
